COMPANY PROFILE

CARMENTA

*The Wellness Industry
founded in 1949*

A family company

Founders: Evaristo Costacurta and Bianca Ortolani

*Established in 1949 in Carmignano di Brenta,
North-East of Italy, Carmenta has had for decades
an important role in the international market,
focusing its core business on bathroom furnishing production.*

*In the last decade Carmenta established
a new department to produce wellness equipments.
The volatility of the global market,
which requires innovative and specific products
without omitting the craftsmanship Made in Italy skills,
has led the departments to work closely with architects,
designers and customers,
getting as result exclusive materials and collections.*

100% made in Italy

All products of Carmenta are hand made crafted in Italy in our plant, all technologies and know-how has been created and developed by our engineers team, following market and client specifications and requests.

All of this is possible because our mission is always to research and develop new shapes, new material and new colors.

Part is due to our technical department, the rest is because of world architects that works for or with us.

As the market is globalized we must be able to achieve the request coming from all over the world.

Design center

As the wellness spa market is global, each country has his own design specifications, his own habit and ritual to enjoy wellness.

To answer this Carmenta has developed a design center to follow the project from the design on paper up to the installation on site.

All is possible because of our own bespoke production, traditional big hammam with dome and old fashioned sauna, upto contemporary Dream collection.

Regency Hyatt 5*

Sochi, Russia
 > 200 rooms
 Arch. Spadevelopment

In the last years, due to Olympic Games, Sochi has become a new modern turistic center in Russia, there has been built a brand new Regency Hyatt, the best five stars hotel in town.

Double glazed saunas are installed in the corners of the building to allowed customers to have a finnish sauna while outdoor is raining or snowing and meantime look at the panorama.

Carmenta in this project provided all the wellness technology of the spa.

The bigger saunas are all in thermowood slats one after another on both walls and benches. Steam baths keeps a traditional look with the steam technology of forced ventilations.

We followed both a russian design, with dark wood and marble, then respected all the deep russian safety requirements for public areas. In this spa are installed glass facades saunas, dark acacia saunas and traditional steam baths.

Wulfenia spa and resort

*Passo Pramollo, Austria
>100 rooms
By Carmenta Design Center*

This resort has been built into a very exclusive mountain pass crossing Italy and Austria. Passo Pramollo is growing as a reality for high end customers.

In Wulfenia spa and resort Carmenta provided all the equipments for the two spa centers.

In order to keep separated nudist from non-nudist customers.

The first floor is dedicated for non-nudist customers, and you can find a big flat pool with

relax area looking at the mountains, nearby you can enjoy a finnish sauna, steam bath and water games showers.

The underground floor is dedicated to nudist, whereabout you can enjoy haviest wellness technologies like a big sauna meister, biosauna, salt room, emotional showers and water games showers.

The resort guests can joint both the south and north Eueopan cultures about wellness.

*Hotel Le Royal Monceux 5**

*Paris, France
> 200 rooms
Arch. Philippe Stark*

This hotel is the perfect example of how wellness meet Beauty.

Not all customers are comfortable with heavy wellness technologies, in this new type of Hotel Hospitality there is a perfect merge between wellness technology, with finnish saunas and pools, and a full beauty areas.

Beuty is created using our Wonder cabin collection, an unique cabin that perform sauna, steam and shower in one.

Whit Wonder you can upgrade you experience of beauty, provide an unlimited range of beauty treatments.

Regarding wellness spa areas are total white painted, with a minimalistic design that allowed customers to concentrate only into wellness.

Resort and SPA L'Adagio

*Badalucco, Italy
Arch. Mirko Macciantelli*

Small Pearl in Liguria.

This wellness center is in an historic oil mill owned by the Family Gaaci, managing the famous olive oil company Olio Roi.

This spa is a perfect match between tradition and innovation.

Located into the old grinding area of the factory, this spa keeps all the traditional look with the panoramic view in front of the cabins and the relax area, the old stones on walls and the noise of the river (used in the past for the grinding

weel) in front of the building create a unique atmosphere, All of this is matched with our Dream Collection Cabins. We add in all of the cabins and the hot spas led lights in benches, ceilings and backrests, to created a contrast between the white lights of stones and the warm lights on cabins.

In this area you can find all the wellness technologies, from a finnish sauna and steam bath, to emotional showers hot spas and cold buckets.

Hotel Mediterraneo

*Jesolo, Italy
Design Center*

Very famous Hotel in Venice beaches.

In this Hotel we project a spa/gym area in the underground of the building between the seaside and the pools, the room is decorated all in travertino romano marble.

In this area you find a full-optional spa in a small space.

Carmenta supplied a Dream finnish Sauna, a Dream Steam bath, a corian ice machine, and wet area with buckets and water games showers.

In front of the spa, you can enjoy fitness machines and a relax area separeted by wood slats and glasses.

Doria Center

Roma, Italy

Arch. Gian Marco Cannavici

The Doria Center Fitness Club has just opened an exclusive wellness area for its clients to relax after gym exercises and courses.

Sauna, Steam Bath, Ice fountain and emotional showers by Carmenta have been chosen to realize the biggest wellness center in Rome in the largest historic building of the city .

Thanks to Carmenta innovative technologies and to its big knowledge on wellness, inside

the Doria Center you can live a real experience of relax and enjoy lots of beauty treatments such as Chromotherapy, Aromatherapy and ice scrubbing.

Thanks to the ice fountain, located near the heat cabins, everyone can enjoy cold treatments stimulating blood circulation and revitalizing the body.

Hotel Milano

Verona, Italy

Design Center

The most appreciate Hotel in Verona with a fantastic overview on the Arena by the rooftop.

On last floor there is an open spa area communicating with a public bar outdoor with a warm hot spa.

The spa is fully available only for rent, private customer can rent the spa for some hours, enjoy sauna, steam and showers experience with a comfortable relax area.
